Hi Jane,

I let Paul know that you may not be able to provide the updated reclamation surety by July 31, 2015. We decided that an extension of the date by which the reclamation surety will need to be posted is warranted. Please provide the reclamation surety by August 31, 2015.

I realize there was some uncertainty on your end as to how long it would take to set up the surety. From what we've seen so far, this kind of time table is realistic for the other mine operators we work with, so I assume it shouldn't be a problem. Keep me posted.

Also, based on our call the other day, we will anticipate your updated Notice of Intention document sometime before late September or early October. Let me know if you have any questions or concerns. Thanks.

Peter

Peter,

Here is the letter requesting an extension for the surety as discussed today.

Thanks for answering our questions during today's conference call.

Best,

Jane
